Dale Holstein

Charlotte, NC
(704) 390-8893
dholstein30@gmail.com
Github:
github.com/Holstein30

Full Stack Web Developer who utilizes front and back end technologies to solve problems with code. Developed an esports history website, car detail booking application, and weekly Fortnite tournament hub. Made use of JavaScript, C#/.NET, and SQL to analyze and come up with solutions for merging data. Lifelong learner who strives to get a little bit better each and every day. You can see my portfolio here: **https://daleholstein.com**.

PROJECTS & EVENTS

Esports History – Sole Developer
https://github.com/Zarnerz/EH-React

A project that acts as the hub for the rich history of esports. Created using React, CSS Grid,and Node.

http://thedetaildevil.herokuapp.com/

Car detail booking application built with Handlebars, Node, React, Express, MongoDB, and Bcrypt.

EXPERIENCE

ICA Adjusters, Charlotte, NC — *IT and Development Support*
July 2019 - December 2020

Utilize JavaScript, C#/.NET, SQL, and Visual Studio to support the development department. Build, image, and deploy PC's utilizing Windows 10 and MDT. Troubleshoot and maintain software applications and devices related to desktop infrastructure. Provide support through HelpDesk as problems arise. Learn new technologies and create training materials for remote work transition.

Boone County Schools, Madison, WV—Substitute Teacher
April 2015 - September 2015

Cooperated with administration and students to get a struggling program back on track, facilitated learning by establishing a relationship with students and organizing classroom resources and environment, developed a system that simulated a real world workplace which resulted in over a 90% pass rate (up from 60% of students passing before I arrived).

Bluegreen Vacations, St. Augustine, FL— *Administrative Assistant*
May 2014 - December 2014
